The actual Open Box product may differ in packaging and included accessories, but has been tested to ensure basic functionality. Integrated video is actually pretty good. Integrated audio is really nice for the price of the motherboard. Up to 256 mb allocated RAM, but only if you have over a gig on the board. Windows XP only allows a maximum 128 mb, but that is Microsofts problem.Dont know if this was a fluke or not but this is the first defective item I have received from NewEgg in several years of doing business with them.Contacted Newegg via online chat. They have disposed of the restocking fee and will refund my purchase price.Newegg was fast and reliable regarding my prediciment. I highly recomend doing business here.For the money the options available. This was a build for a customer, and the on board VGA was a plus to keep costs down.Monitor will not recieve any signal.

Tested monitor on other systems and it works fineEach of the three fired right up and have yet to give me any problems. I coupled them with inexpensive Pentium D processors and they perform very well in a business environment. The PCI Express slot means I can upgrade the video in the future should I need to.Only one IDE connector means you should use an SATA drive with this board.This board works very well for me.Nice to have everything video, sound, ethernet on single board, but can also add 16x PCIe vid card, etc when upgrade time.Click here for more details. Secure shopping made faster. Check out with PayPal. Any exceptions to the condition of the item outside the manufacturer's information should be provided in the listing, up to and including warranty details. Any accessories MAY OR MAY NOT be included. Newegg will NOT send you any missing accessories, even if it is required to use all of the item's functions.Open Box items usually do not come with manufacturer or vendor warranty or technical support. However, warranty support may be available if an item was never registered by a previous owner. Please contact the manufacturer to check. Product may includes warranty, and accessories found with the original product. Product may or may not be in the original packaging. Returned items with minor packaging defects fall under this category. Product does not come with warranty unless stated otherwise in product description. Product does not come with warranty unless stated otherwise in product description. Product does not come with warranty unless stated otherwise in product description. Functionality issues beyond signs of use should be disclosed in product description. Some manufacturers place restrictions on how details of their products may be communicated. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyses reviews to verify trustworthiness. Its installed and working great.Sorry, we failed to record your vote. Please try again. What is Viiv Weve covered this topic during our IDF Spring 2006 coverage a month ago, which you can see here. If Intel had its way, Viiv will be smarter, more secure, have better interoperability and more compliant than your average offtheshelf or DIY HTPC system. The only bump in the road at the moment is that a certified Viiv environment must be running on Microsoft Windows XP MCE only, with Vista joining as and when it arrives. So even if you have all the right hardware you are not truly Viived unless youre running Windows XP MCE. But lets not lose focus contemplating on what Viiv is or is not, which is a discussion for another day. The 945GM3 isnt exactly a new motherboard as it was initially launched as an entrylevel board with onboard graphics based on the Intel 945G Express chipset. Just recently, ECS has replaced the existing 945GM3 with a new revision 1.

0B Viiv featuring an updated ICH7DH DH presumably standing for Digital Home Southbridge that supports the Viiv stack. The revised 945GM3 will allow users to run Intels Viiv software, enabling advanced digital home features and enhancing those of Windows XP MCE. You can reach out to them here.
